# ReCercador

Access to a range of electronic resources: databases, library portals, catalogues, e-journals...

## ReCercador: Electronic Resources Searcher

The ReCercador provides a single access point to a series of different electronic resources such as bibliographical databases, ebook collections, journal collections and electronic journals. The ReCercador allows the user to search for information in an easy way simultaneously through different electronic resources with a sole search interface.

### With the ReCercador you can:

- Locate e-resources subscribed to by the University of Barcelona as well as a selection of open access resources.
- Make specific bibliographic cross-domain searches and access the full text (if we have subscribed to the journal)
- Search simultaneous pre-selected groups of resources, when allowed by the resource (for metasearchable resources the icon  appears)
- Locate e-journals and access full text articles.

### QuickSearch

Enables simultaneous searches to a selected group of pre-defined set of resources. Not all the electronic resources in the ReCercador have been included in these groups of pre-defined resources.

### MultiSearch

Enables simultaneous searches of different resources. Discipline resources of interest can be selected by subject, pre-defined groups, supplier or resource type.

### Find Database

Enables search and access for all electronic resources available, mainly bibliographic databases, subscribed to by UB.

### Find e-Journal

Enables search of a specific journal title among the electronic journals subscribed to by the UB and a selection of open access journals.

### Find e-book

Enables search of specific book title among the electronic books subscribed to by the UB and a selection of open access books.

### Change Portal

Enables searching resources of other libraries of the Consorci de Biblioteques Universitàries de Catalunya (Consortium of Academic Libraries of Catalonia).

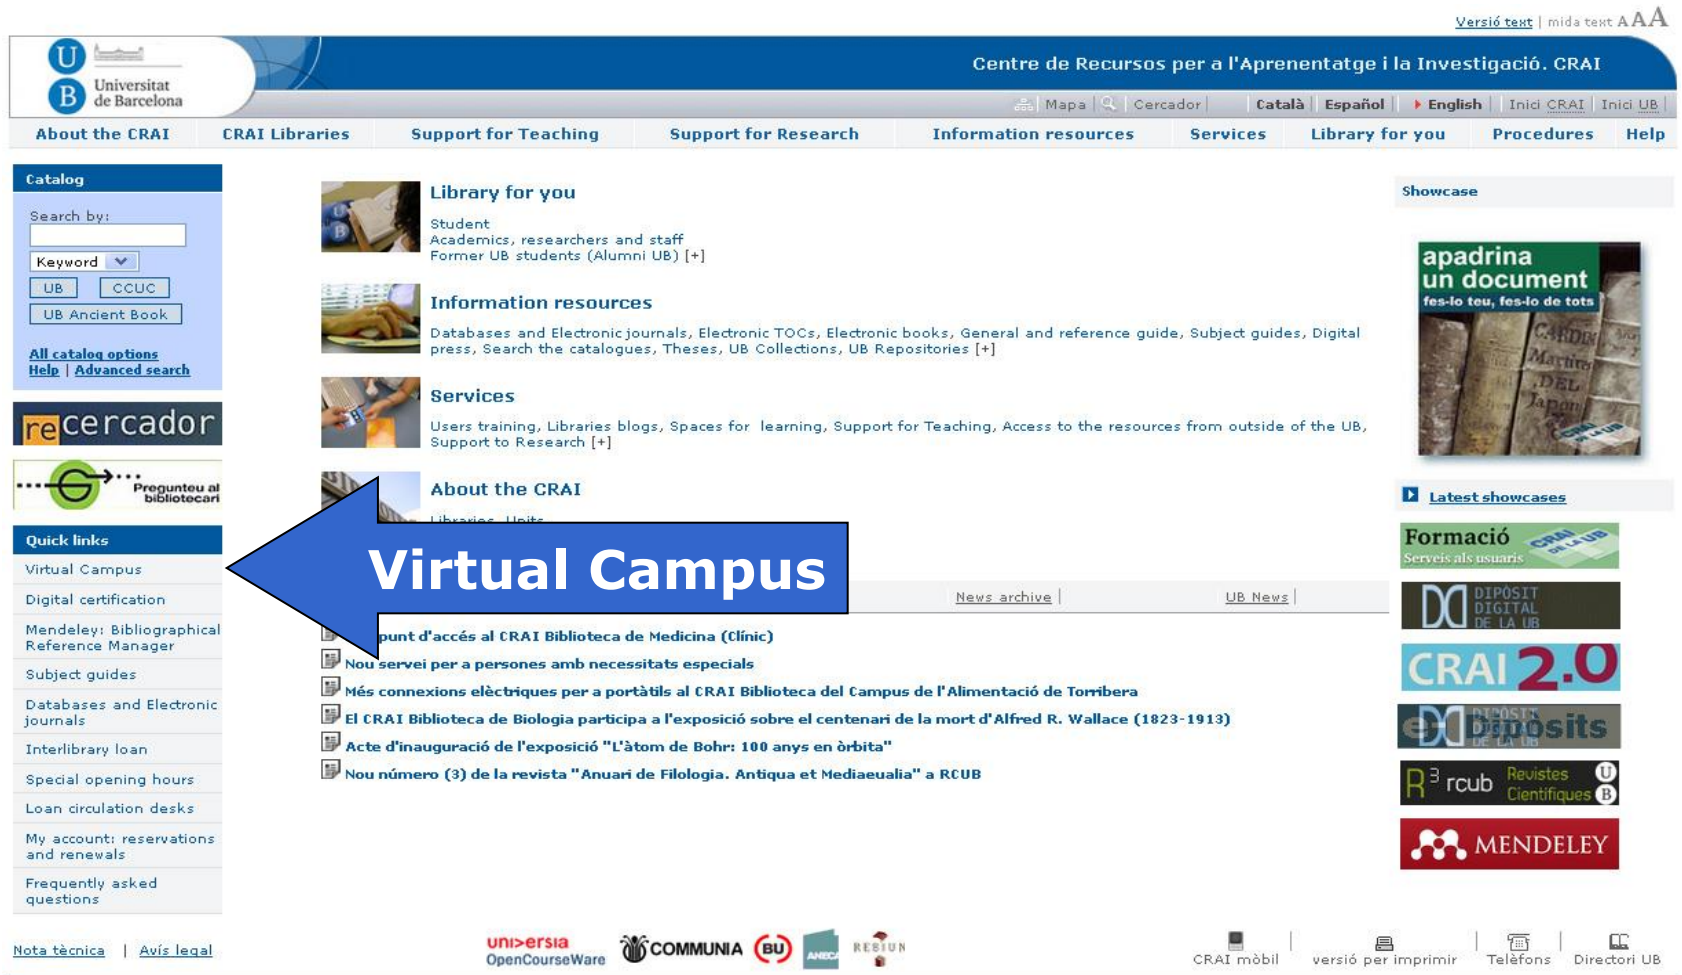

### Log In

Enables you to personalize *My Space*.
