The collection

The four sections of the Philology CRAI Library provide comprehensive materials for teaching and research activities at the Faculty for the courses: English Studies, Arabic and Hebrew Studies, Literary Studies, Communication and Culture Industries, Catalan Philology, Classics, Spanish, Linguistics and Modern Language and Literature.

It is also a specialized library, as it holds materials from after 1820 from the former Biblioteca Provincial i Universitària (Provincial and University Library) and is responsible for the management of this large encyclopaedic collection, which is an essential part of the history of the University of Barcelona and the city of Barcelona.

The overall collection comprises monographs, printed journals, electronic resources, statistical publications, doctoral theses and audiovisual materials. Books, theses and audiovisual materials are organized using the UDC classification method. Journals are classified alphabetically.

You can use this form to send your proposals for book purchases.
Each CRAI Biblioteca has this section in its web.

It is a selection of information resources related to the subject areas of teaching and research at the University.

You will find databases, books and electronic journals, text books, etc.
