HEALTH EMERGENCIES

If the person requiring assistance is unconscious, first call **112** and inform the Information Point as soon as possible.

Locate the nearest emergency equipment to be able to use it in case of burning, contact with corrosive or toxic products, etc.

1. Always follow the instructions that you receive from the UB interlocutor or the person in charge.
2. Do not move around UB facilities if you are not authorized. Access to decks, centres of transformation of electrical energy, machine rooms and similar technical facilities, and confined spaces or enclosures is prohibited.
3. Do not use any facility nor manipulate any UB equipment or product or waste containers without authorization.
4. Keep the facilities clean and tidy during and after work. Disorder creates confusion and mistakes, and causes accidents.
5. Put physical barriers to tasks that entail a risk for third parties.

IN CASE OF EMERGENCY

FACULTY OF PHARMACY AND FOOD SCIENCES
(TORRIBERA CAMPUS – LA MASIA BUILDING)

Where is your nearest emergency exit?

If your building has defibrillators, stay calm during the emergency and follow the instructions for use: there is no risk for you.

Drop to the floor and roll slowly on the ground.

If your clothing catches fire

1) If the person requiring assistance is unconscious, first call **112** and inform the Information Point as soon as possible.
2) Do not move around UB facilities if you are not authorized. Access to decks, centres of transformation of electrical energy, machine rooms and similar technical facilities, and confined spaces or enclosures is prohibited.
3) Do not use any facility nor manipulate any UB equipment or product or waste containers without authorization.
4) Keep the facilities clean and tidy during and after work. Disorder creates confusion and mistakes, and causes accidents.
5) Put physical barriers to tasks that entail a risk for third parties.
**IN WHICH CASES SHOULD YOU LEAVE THE BUILDING?**

**FIRE**

In case of other emergencies, such as toxic snow or clouds, follow the instructions of the emergency services.

- **Fire:** In which cases should you leave the building?
  - Fire
  - Bomb threat
  - Gas leak

**If the alarm goes off, exit immediately**

- Take refuge from fire and smoke by closing all doors and using cloth to cover all cracks.
- Warn the centre’s Information Point.
- Make yourself visible at the window.
- Close windows and do not leave doors open behind you.

**If you detect fire, give a warning**

- Use the extinguisher only if:
  1. There is little smoke.
  2. The fire is small.
  3. There is an open exit.

- Take the extinguisher by the handle and remove the seal by pulling the ring.
- Press the handle directing the jet to the base of the flames with a zigzag movement.

**When and how to use a fire extinguisher**

- Press the handle directing the jet to the base of the flames with a zigzag movement.
IN WHICH CASES SHOULD YOU LEAVE THE BUILDING?

- **FIRE**
