# European Pharmacopoeia

**Spanish Version:** The Spanish version now contains about 1410 6th Edition texts. New translations are put online on a regular basis. These texts are available to subscribers to the current online version.

**Archive version:** An archive version containing all previous editions of the European Pharmacopoeia is now available as a service to subscribers to the current online versions.

**Welcome to the European Pharmacopoeia Online**

Please read this before you continue

**NOTICE:** By subscribing to the European Pharmacopoeia Online Version 6th Edition, the Licensee acknowledges that he or she has read and agrees to be bound by the following [General Terms and Conditions](#).

This menu page provides access to the electronic versions of the 6th edition of the European Pharmacopoeia. The English and French electronic edition is cumulative and is compiled from texts which were used to produce the paper versions. In the event of any divergence between the version and the electronic version, it is the paper version which prevails.

Either a password or a pre-registration of your company's fixed IP-address is needed to access. Please inquire [here](#) to obtain an access.

For legal reasons, the official publication date of a European Pharmacopoeia supplement is 6 months ahead of its application date. However, in practice, a supplement may be made available before its publication date. Note that the early availability of a supplement does not modify its official publication dates.

| EDITION                |                            |                                                                                                                                                   |

## The British Pharmacopoeia 2010

### Setting the standard for compliance across the globe

The British Pharmacopoeia (BP) is the official collection of standards for UK medicinal products and pharmaceutical substances. Produced by the British Pharmacopoeia Commission Secretariat, part of the Medicines and Healthcare products Regulatory Agency, the BP makes an important contribution to public health by setting publicly available standards for the quality of medicines.

The BP comprises a five volume printed set, including a single volume of the BP (Veterinary) 2010 together with a fully searchable CD-ROM and online access to provide you with a flexible resource.

### The British Pharmacopoeia 2010 contains:

- Monographs including British Pharmacopoeia (Veterinary) monographs
- Test methods
- Infrared reference
- Spectra
- Supplementary information

### New for 2010

- 40 new monographs for formulated preparations
- Additional standards for widely used unlicensed formulations
- European Pharmacopoeia 6th edition material up to and including Supplement 6.5
- Three free in-year updates for the BP 2010 online to harmonise with the European Pharmacopoeia
- Updates available in January, April and July 2010

### Order now

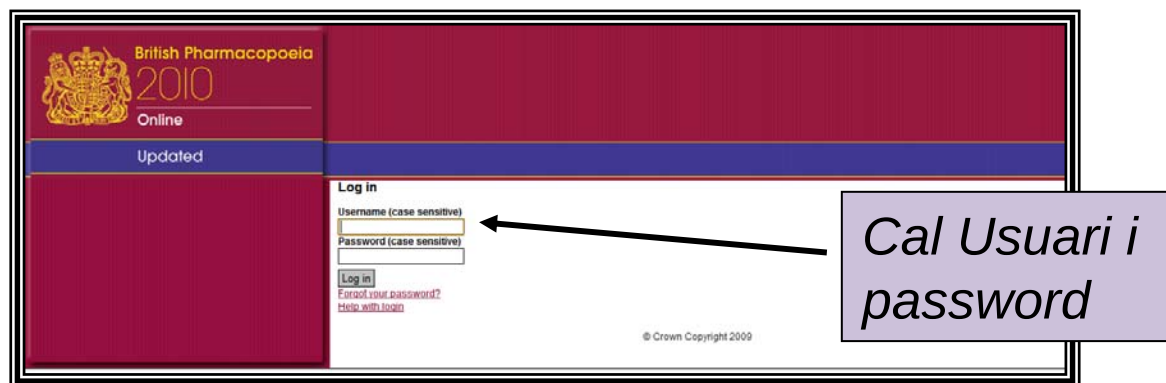

The BP 2010 is now available. Place your order now to ensure you receive your copy in time for your needs.
