Thomas Mann and Bertolt Brecht: Anatomy of an Antagonism

by Hans Mayer

Word has it that there was no love lost between the two writers Thomas Mann and Bertolt Brecht. Indeed, there are plenty of documents testifying to their mutual dislike. Occasionally, the nastiness and vindictiveness acquired high literary quality. Brecht, a master of crude humor, did most of the

Accessing UB electronic resources

The E-Resources Access Service (SIRE) provides access to electronic information resources contracted by CRAI, from a computer/client/device **inside or outside the University of Barcelona network**. It is based on OCLC's EZproxy solution.

SIRE is aimed at University teaching and research staff (PDI), administrative and service staff (PAS), and students.

Requirements

- ▶ You must be a member of the UB community: lecturer, student or member of the administrative and service staff.
- ▶ Authenticate as a member of the UB (with UB or local identifier).

E-Resources Access Service (SIRE)

We present two options for access:

- ▶ **Enabling access.** If you access material from a search engine results page (e.g. Google or PubMed), a shortcut or a bookmark, or from **UB Virtual Campus**
 - ▶ Must be installed previously the **Sire** button and drag it to Bookmarks.
 - ▶ [More information.](#)
- ▶ **With access automatically activated.** Must go through the **Cercabib** and also pressing the bottom [Consulta!](#) on the screen you will find the results of searches performed (included those made on Google Scholar). These tools are configured to automatically activate access.

Authentication

- ▶ Authenticate as a member of the UB (with UB or local identifier).

30 days

Recommended bibliography: 10 days

When you place a request for a book from a **CRAI library outside your campus**, you will receive it at your library of choice in between 2 to 3 days.

Renewals

You can renew your loans as many times as you need, as long as the item has not been requested by another user.

Requests

You can place a request on a maximum of 8 items.

Overdue items

If you are late returning the books, your loaning privileges will be suspended between one to several days, depending of the delay.

My Account

You can **renew & request** documents at the loan desk or via ***My account*** on Cercabib.

Borrowing History

To keep a record of your borrowing history, set it up from *My account* -> *reading history*.

Library consortium loan (PUC)

PUC is a free service through which users of the universities that are members of the Catalan Consortium of University Services (CSUC) can request and borrow items from another member library.

How to request an item:

- In person, at the library that holds the item: **PUC in situ**.
- Online, using the **PUC web portal**.

Bibliographic information

This service provides support on bibliographic information, such as **literature searches** on a particular topic or citation information searches on databases, like the Web of Science, Scopus or other. We respond to requests within five working days.

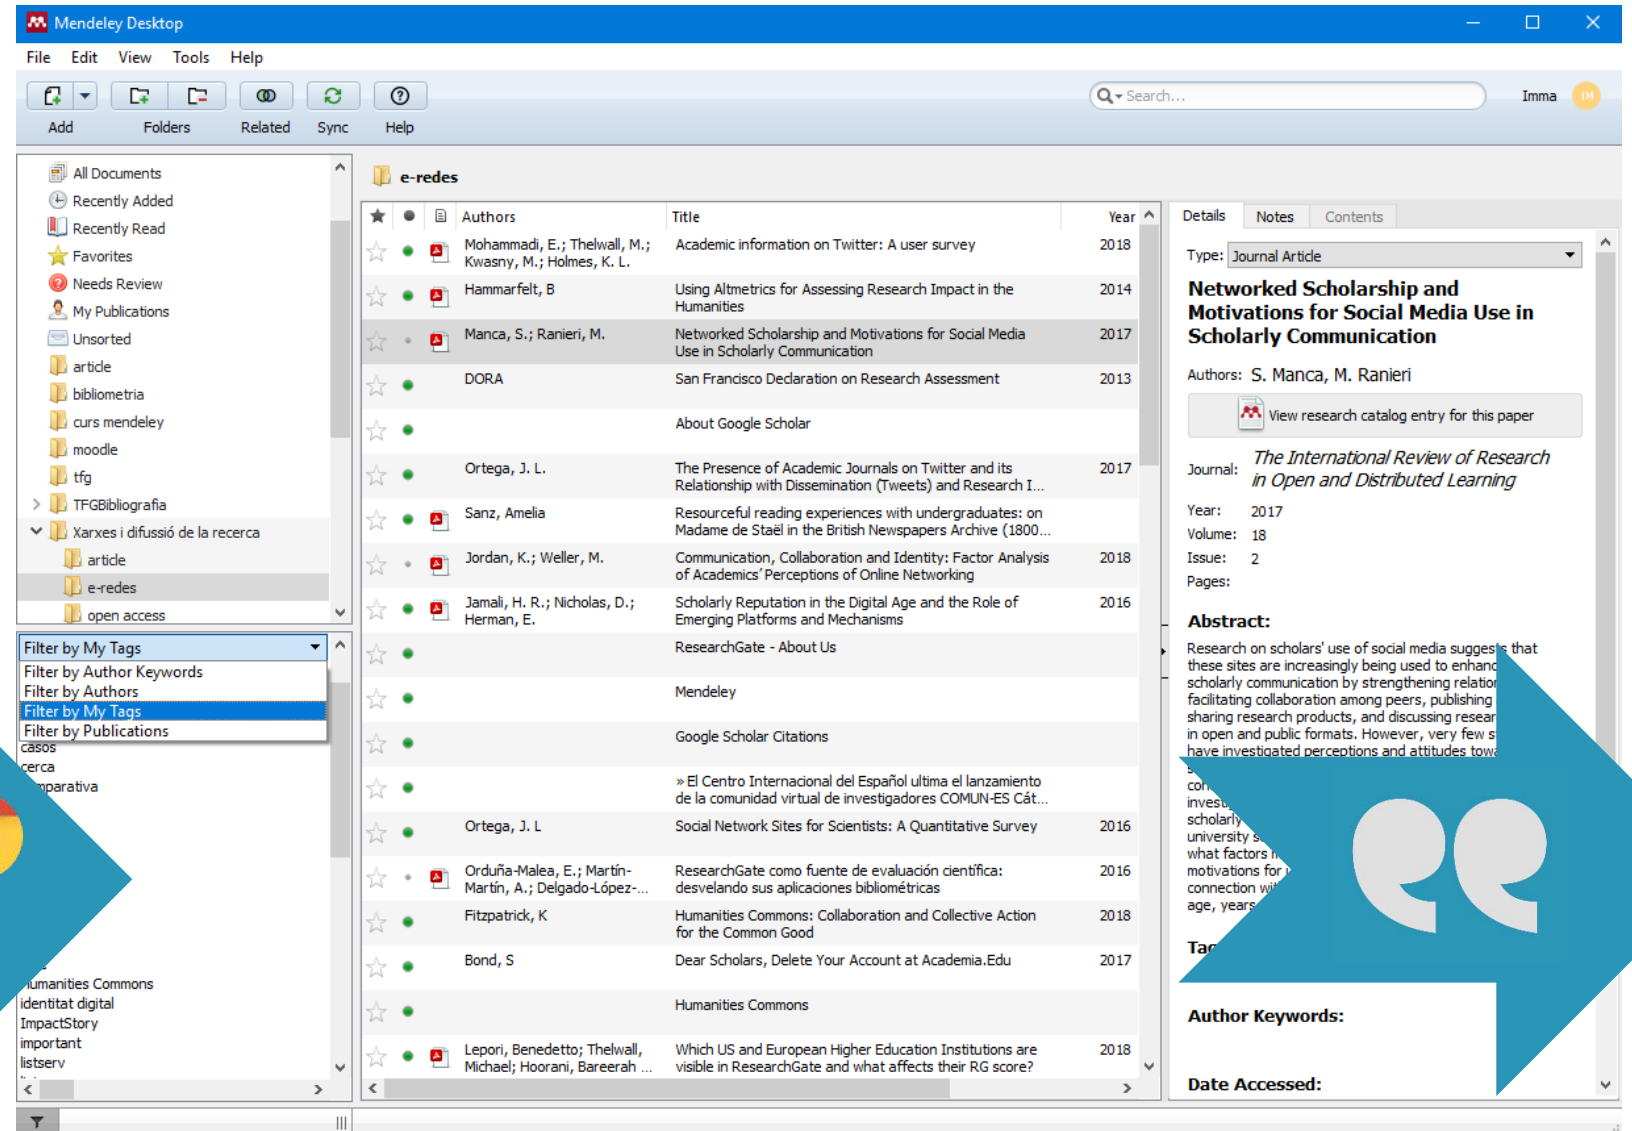

The image displays two overlapping search interfaces. The background interface is the Web of Science search page, featuring a navigation bar with links to 'Web of Science', 'InCites', 'Journal Citation Reports', 'Essential Science Indicators', 'EndNote', and 'Publ'. Below the navigation bar, the 'Web of Science' title is prominent, followed by a 'Herramientas' section. A dropdown menu for 'Seleccionar una base de datos' is set to 'Todas las bases de datos'. Search options include 'Búsqueda básica', 'Búsqueda de referencia citada', and 'Búsqueda avanzada'. A search input field contains the example text 'Ejemplo: oil spill* mediterranean' and a 'Tema' button.

The foreground interface is the Scopus search page. It features the Scopus logo and a navigation bar with 'Search', 'Sources', 'Lists', and 'SciVal'. A 'Create account' button and a 'Sign in' button are visible. The main heading is 'Document search', with a 'Compare sources' link. Search filters include 'Documents' (selected), 'Authors', and 'Affiliations', along with an 'Advanced' link. A search input field contains the example text 'E.g., "Cognitive architectures" AND robots'. A dropdown menu is set to 'Article title, Abstract, Keywords'. At the bottom, there are links for '+ Agregar fila' and 'Restablecer'.

Mendeley is a **reference manager** and a citation generator.

It helps you to organize your research citations and work, collaborate with other users online, and find information published in your subject area.

Abstract:
Research on scholars' use of social media suggests that these sites are increasingly being used to enhance scholarly communication by strengthening relationships, facilitating collaboration among peers, publishing, sharing research products, and discussing research in open and public formats. However, very few studies have investigated perceptions and attitudes toward...
