

How to customise your own style:

1. M Studio - Colourful Hierarchy Category GameObject
2. Chose [Color Palette](#)
3. There are some preset style in it. You can add new ones or modify any one (picture right)
4. Go to your Hierarchy window, rename any gameObject begin with your symbol ([keyChar](#) in Color Palette) and save your project.
5. For more informations, please take a look at the code in [StyleHierarchy.cs](#) file
